Talk no. fourteen

TORONTO GEOMETRY COLLOQUIUM

Mina Konaković Luković

Massachusetts Institute of Technology

“Transforming Design and Fabrication with Computational Discovery”

Maria Larsson
University of Tokyo

“Tsugite: Interactive Design and Fabrication of Wood Joints”

Follow us @GeometryToronto
<https://toronto-geometry-colloquium.github.io>

The Toronto Geometry Colloquium is a live weekly hour-long webseries showcasing geometry processing research. Topics range from computer science, mathematics, and engineering including 3D deep learning, computational fabrication, and computer graphics
